PRODUCT GUIDE

The background of the page is a soft-focus collage. It features several baby photographs: a large one of a baby lying down in a white dress, a smaller one of a baby sitting up, and a photo album with multiple pages showing different baby photos. The overall color palette is warm and pastel, with shades of pink, yellow, and white. The text is overlaid on a semi-transparent white area at the bottom.

Professional Impressions

Technology has brought us many conveniences, but we've lost the habit of having photos scattered around the house or in family albums.

Technology evolves and, unfortunately, technology can become obsolete or fail outright. Printed photography remains a tangible incarnation of your memories.

That's why printed products are so precious. When we invest in a photoshoot and keep it only in a digital format it's like buying a gorgeous painting that is never put on display.

Album

Choose from over 80 Textile, Leatherette or Velvet/Suede material options, and over a dozen design additions to create a truly custom and unique photo album

8x8"

12x8"

10x10"
